Annual Index

Volume 22/1991

Authors

Baum, H. M., Wells, J. K., & Lund, A. K. The fatality consequences of the 65 mph speed limits, 1989. 22(4):171–177.

Cohen, H. H., Lin, L-j. A retrospective case-control study of ladder fall accidents. 22(1):21–30.

Cohen, H. H., Lin, L-j. A scenario analysis of ladder fall accidents. 22(1):31–39.

Colon, I. Letter to the Editor. 22(1):49–51.

Dedobbeleer, N., Beland, F. A safety climate measure for construction sites. 22(2):97–103.

Frantz, J. P., Miller, J. M., & Lehto, M. R. Must the context be considered when applying generic safety symbols: A case study in flammable contact adhesives. 22(3):147–161.

Joksch, H. C. Letter to the Editor. 22(1):49–51.

Laananen, D. H. Crashworthiness analysis of commuter aircraft seats and restraint systems. 22(2):83–95.

Lee, K., Bruckner, A., II. Human lifting strength in different postures. 22(1):11–19.

Lehto, M. R., Foley, J. P. Risk-taking, warning labels, training, and regulations: Are they associated with the use of helmets by all-terrain vehicle riders? 22(4):191–200.

Lourens, P. F., Van der Molen, H. H., & Oude Egberink, H. J. H. Drivers and children: A matter of education? 22(2):105–115.

Lui, K-J., Pollock, D. An application of proportional hazards model to study the recurrent time between traffic accidents or infractions and subsequent fatal automobile crashes, 1986–1988. 22(3):163–170.

Mulder, S., Rogmans, W. H. J. The evaluation of the European home and leisure accident surveillance system. 22(4):201–210.

Peters, R. H. Strategies for encouraging self-protective employee behavior. 22(2):53–70.

Stevenson, M. R. Analytical approach to the investigation of childhood pedestrian injuries: A review of the literature. 22(3):123–132.

Streff, F. M., Molnar, L. J. Use of automatic safety belts in Michigan. 22(3):141–146.

van Nooten, W. N., Blom, D. H. J., Pokorny, M. L. I., & van Leeuwen, P. Time intervals between bus drivers' accidents. 22(1):41–47.

Veltri, A. Management principles for the safety function. 22(1):1–10.

Wigglesworth, E. C., Uber, C. B. An evaluation of the railway level crossing boom barrier program in Victoria, Australia. 22(3): 133–140.

Wogalter, M. S., Brelsford, J. W., Desaulniers, D. R., & Laughery, K. R. Consumer product warnings: The role of hazard perception. 22(2):71–82.

Yoganandan, N., Pintar, F., & Sances, A., Jr. Biodynamics of steering wheel induced facial trauma. 22(4):170–190.

Titles

Analytical approach to the investigation of childhood pedestrian injuries: A review of the literature, Stevenson, M.R. 22(3):123–132.

An application of proportional hazards model to study the recurrent time between traffic accidents or infractions and subsequent fatal automobile crashes, 1986–1988, Lui, K-J., Pollock, D. 22(3):163–170.

Biodynamics of steering wheel induced facial trauma, Yoganandan, N., Pintar, F., & Sances, A., Jr. 22(4):179–190.

Consumer product warnings: The role of hazard perception, Wogalter, M. S., Brelsford, J. W., Desaulniers, D. R., & Laughery, K. R. 22(2):71–82.

Crashworthiness analysis of commuter aircraft seats and restraint systems, Laananen, D. H. 22(2):83–95.

Drivers and children: A matter of education? Lourens, P. F., Van der Molen, H. H., & Oude Egberink, H. J. H. 22(2):105–115.

The evaluation of the European home and leisure accident surveillance system, Mulder, S., Rogmans, W. H. J. 22(4):201–210.

An evaluation of the railway level crossing boom barrier program in Victoria, Australia, Wigglesworth, E. C., Uber, C. B. 22(3): 133–140.

The fatality consequences of the 65 mph speed limits, 1989, Baum, H. M., Wells, J. K., & Lund, A. K. 22(4):171–177.

Human lifting strength in different postures, Lee, K., Bruckner, A., II. 22(1):11–19.

Letter to the Editor, Joksch, H. C. 22(1):49–51.

Letter to the Editor, Colon, I. 22(1):49–51.

Management principles for the safety function, Veltri, A. 22(1):1–10.

Must the context be considered when applying generic safety symbols: A case study in flammable contact adhesives, Frantz, J. P., Miller, J. M., & Lehto, M. R. 22(3):147–161.

A retrospective case-control study of ladder fall accidents, Cohen, H. H., Lin, L-j. 22(1): 21–30.

Risk-taking, warning labels, training, and regulations: Are they associated with the use of helmets by all-terrain vehicle riders? Lehto, M. R., Foley, J. P. 22(4):191–200.

A safety climate measure for construction sites, Dedobbeleer, N., Beland, F. 22(2):97–103.

A scenario analysis of ladder fall accidents, Cohen, H. H., Lin, L-j. 22(1):31–39.

Strategies for encouraging self-protective employee behavior, Peters, R. H. 22(2): 53–70.

Time intervals between bus drivers' accidents, van Nooten, W. N., Blom, D. H. J., Pokorny, M. L. I., & van Leeuwen, P. 22(1):41–47.

Use of automatic safety belts in Michigan, Streff, F. M., Molnar, L. J. 22(3):141–146.
